## **Algorithms -1-**

University of Aleppo

**Student Name:**

Model: A

**Duration:** 90 Minutes

**Student Number:**

**Select the correct answer for each question:**

1.  
A. 14                      B. 15                      C. 16                      D. 17                      E. 17                      [1 points]

2.  
A. 13                      B. 14                      C. 15                      D. 16                      [2 points]

3.  
A. 13                      B. 14                      C. 15                      D. 16                      E. 17                      [3 points]

4.  
A. 1                      B. 2                      C. 3                      D. 4                      E. 5                      [3 points]

5.  
A. 1                      B. 2                      C. 3                      D. 4                      E. 5                      [1 points]

6.  
A. 1                      B. 2                      C. 3                      D. 4                      E. 5                      [1 points]

7.  
A. 1                      B. 2                      C. 3                      D. 4                      [2 points]

8.  
A.  $n * (n + 1) / 3$                       B.  $n * (n - 1) / 2$                       [1 points]

9.  
A. 34                      B. 36                      C. 40                      D. 31                      [1 points]

10.  
A. 30                      B. 40                      C. 50                      D. 60                      [1 points]

11.  
A. -1                      B. -2                      C. -3                      D. 3                      [1 points]

**12.**

**A.** 7

**B.** 9

**C.** 8

**D.** 10

[1 points]

**13.**

**A.**  $x$

**B.**  $2 * x$

[5 points]
